

WEEKLY UPDATE

1/6/2021

Dear Residents and Families/Representatives,

Please accept this letter as our weekly update regarding the status of COVID-19 in our facility. Since the onset of this virus, we have had 35 residents and 31 staff members test positive for COVID-19. Fairfield has completed 25 weeks of weekly staff testing with no new cases. We have completed our 10th round of testing all the residents in the facility and we are happy to report that no residents tested positive for COVID-19 during this round. Fairfield will be conducting outbreak testing for one more week for surveillance purposes. During this time, visitation will not be allowed. Exceptions will be made for compassionate care situations.

As always, we are working hard to keep everyone in our community safe and we will continue to practice the enhanced safety precautions that are known to prevent the spread of COVID-19, such as only essential personnel are allowed inside the facility and we screen them for signs and symptoms of illness prior to entering. Our residents are continually monitored and staff is using PPE as recommended by the CDC. Staff is frequently reminded and encouraged to practice social distancing and to use hand sanitizer and frequently wash their hands when they are in the facility and out in the community. We ask them not to report to work if they have symptoms of illness.

Please continue to check our website for weekly updates as well as notification of new cases. As always, we will notify you if we receive confirmation of a new positive case in our facility and we will reach out to you individually if your loved one is displaying symptoms of COVID-19 or tests positive for COVID-19.

If you have any questions or concerns please contact us directly at (410) 923-6820.

Sincerely,

[Charles Woodberry, MS., LNHA](#)
